👤 Profile Summary

I'm a curious and creative developer with a strong interest in both web technologies and AI-powered applications. Over the past year, I've built diverse projects—from a crypto prediction system using Streamlit and machine learning to an offline image generation tool with Stable Diffusion and ComfyUI, and a personalized health tracking website using HTML, CSS, and JavaScript. I enjoy building things that are not only technically functional but also meaningful to users. I take pride in writing clean code, designing user-friendly interfaces, and learning new tools that push my skills forward. Whether it's frontend design or experimenting with AI workflows, I love working on ideas that solve real problems.

📁 Experience

GenAI Powered Data Analytics

07/2025 – 08/2025
India

Tata iQ | Forage

- Completed a job simulation involving AI-powered data analytics and strategy development for the Financial Services team at Tata iQ.
- Conducted exploratory data analysis (EDA) using GenAI tools to assess data quality, identify risk indicators, and structure insights for predictive modeling.
- Proposed and justified an initial no-code predictive modeling framework to assess customer delinquency risk, leveraging GenAI for structured model logic & evaluation criteria.
- Designed an AI-driven collections strategy leveraging agentic AI and automation, incorporating ethical AI principles, regulatory compliance, and scalable implementation frameworks.

AI: Transformative Learning Intern

01/2025 – 03/2025
India

Microsoft | TechSaksham

- Built a local, offline image generation pipeline using Stable Diffusion, integrated with ComfyUI. Configured and enhanced the workflow for efficient image rendering with customizable prompts. Focused on user-friendly interface design, and optimized performance for high-quality output.
- I gained valuable experience working within TechSaksham, applying learned concepts directly to relevant work situations.
- Participated in workshops and presentations related to projects to gain knowledge.
- Prepared project presentations and reports to assist senior staff.
- Contributed to project success by diligently performing literature reviews.

📁 Projects

Crypto Trend Analyzer & Price Predictor

04/2025 – 05/2025

Python | Streamlit | LSTM | TextBlob | NewsAPI | CoinGecko

- Developed a real-time crypto prediction dashboard using LSTM-based modelling and integrated sentiment analysis from live news articles.
- Used CoinGecko API for historical price data and NewsAPI + TextBlob to score market sentiment.
- Deployed a fully interactive web app using Streamlit with visualized predictions.

Personalized Health Tracking Website

01/2025 – 04/2025

HTML | CSS | JavaScript

- Designed and developed a fully responsive web application for personalized fitness and diet tracking using HTML, CSS, and JavaScript, ensuring seamless user experience across devices.
- Implemented interactive features for goal setting, progress monitoring, and daily activity logging, enabling users to track health metrics effectively.
- Prioritized modular and scalable front-end code structure, preparing the project for future integration with backend services (like cloud syncing or AI-based recommendations).

Skills

- **Languages:**
Python, JavaScript, HTML, CSS
- **Tools & Platforms:**
Git, Figma, WordPress, API Integration
- **Frameworks & Libraries:**
Streamlit, Flask, Pandas, NumPy, TensorFlow, React.js, Matplotlib, Seaborn
- **Concepts:**
AI/ML Basics, Data Analysis & Visualization, Time Series Forecasting, NLP

Education

B.Tech in Computer Science & Engineering
ITM (SLS) Baroda University

09/2021 – 12/2025
Vadodara, Gujarat

H.S.C : Science (Group A - Mathematics)
Shree Navdurga High School

Rajpipla, Gujarat

Certifications

- Internship in "AI: Transformative Learning" - TechSaksham
- Machine Learning Using Python - Simplilearn
- AI/ML Basics - Analytics Vidhya
- Introduction to Data Science - Simplilearn
- GenAI Powered Data Analytics - Forage(TATA)
- Data Analyst 101 - Simplilearn(Microsoft)
- Generative AI - Simplilearn
- Big Data Analytics - Great Learning

Languages

GUJARATI

HINDI

ENGLISH

Additional

- Building a portfolio site to showcase live project demos
- Currently learning basic concepts of Data Science
- Open to internship opportunities in AI, Web Dev, and Data Scientist
